Wire Shears Cutting Pliers -Strong & Easy, [XTL-5511] Beadsmith Jeweller's Micro Pliers

Chain Nose Flat Nose

## Instructions

You have enough beads in this kit to make the bracelet wider than pictured if you want.

1. Finish one end of the cut memory wire with a simple loop. To see how to do this, please watch the video: [How to Finish Memory Wire Ends](#).
2. String onto your memory wire: 16 metallic silver 6mm Czech Glass druk beads, 19 dark silver pearlized 8mm Czech glass round beads, and 16 dark amethyst 6mm Czech Glass druk beads. Create a simple loop after your last bead and cut off excess memory wire.
3. Place onto a head pin 1 metallic silver 6mm Czech Glass druk beads. Create a simple wire loop after the bead and snip off excess wire. Repeat this step with another head pin and a 6mm Czech Glass druk bead
4. Open the simple wire loops in the dangles above (the same way you would open a jump ring) and connect one to each of the loops on the bracelet. Close the loops back up.

5. All done!
