

# Love Me Always Bracelet

## Project B697

Designer: Julie Bean

This bracelet is sweet, romantic, and quite utterly charming to boot. Silver plated bow stampings have been interspersed with prong set Czech glass chatons in a pale pink hue and then capped off with an arrow and heart toggle clasp.

Project uses 1 clasp

## Recommended Tools:

[XTL-5511] Beadsmith Jeweller's Micro Pliers Chain Nose Flat Nose, [XTL-5511] Beadsmith Jeweller's Micro Pliers Chain Nose Flat Nose

## Instructions

The instructions below will make an approximately 7 inch bracelet (just a little smaller). However, if you want to make it larger, there are plenty of leftover supplies included in the project ingredients for you to expand the length of the bracelet.

1. Start by watching the video: [How to Use Nunn Design Prong Settings for Chatons.](#)
2. Based upon what you learned in the video, place 6 Czech Glass table cut oval chatons into 6 Nunn Design prong settings.
3. Starting with a prong set chaton and using jump rings, link together 6 chatons and 5 bows, alternating chaton, bow, chaton, bow, etc. until you end with a chaton on each end.
4. Open another jump ring and link it to an end chaton and also the heart part of your toggle clasp. Close the jump ring.

5. On the other side of your bracelet, open and connect a jump ring. Close this jump ring. Open, connect, and close another jump ring to the one you just attached. Open and connect a third jump ring to the second one you attached and also link onto this jump ring the arrow part of your toggle clasp. Close the jump ring.

6. Enjoy!
