Instructions

These instructions will make a 7 1/2 inch bracelet. For a longer or shorter bracelet, cut a bigger or smaller piece of cotton cord.

1. Cut one 6 1/2 inch piece of the woven cotton cord.
2. Slide the ornate square large hole bead to the center of the cord. Slide two pink O-Rings on either side of the bead.
3. On one side, slide one yellow and one orange O-Ring onto the cord about an inch from the center. Then add the sun pattern large hole bead. Slide one pink and one orange O-Ring onto the cord after it.
4. On the other side, slide on one orange and one yellow O-Ring, then add the swirl pattern large hole bead. Slide on one pink and one orange O-Ring after it.
5. Place a dab of E6000 on the tip of one side of your cord and fit it into one of the silver cord ends. Repeat for the other side of your bracelet. Let the E6000 dry for a few hours.
6. Using your pliers, open a jump ring. Slide it through the loop of one of your cord ends and then add one piece of the magnetic clasp. Close the jump ring. Open another jump ring and repeat this step for the other end of your cord, attaching the other half of the magnetic clasp.
7. Your bracelet is ready to wear!
