Instructions

In addition to the materials listed, you will also need a toothpick or scrap of wire. These instructions will make a 7 inch bracelet. For a longer or shorter bracelet, adjust the length of chain used.

1. Take a bit of E6000 glue on the tip of a toothpick or a scrap of wire. Dab the glue around the inner edge of 1 Nunn Design open back bezel. Take 1 Swarovski crystal cushion fancy stone and press it into the bezel. Let the glue dry for 14-16 hours, or overnight.
2. Using flush cutters, cut 6 inches of textured chain.
3. Open a jump ring. Slide it through the loop at the top of the open back bezel charm, and also slide it onto the silver hoop. Close the jump ring.
4. Open another jump ring. Slide it onto the silver hoop, and also slide it through the first link of your length of chain. Close the jump ring.
5. Open another jump ring. Slide it through the last link of your length of chain, and also slide it through the loop of your clasp. Close the jump ring.
6. Fasten the clasp around the silver hoop to close your bracelet. Enjoy!
