

Midnight Super Kheops Par Puca Memory Wire Bracelet Set

Project B793

Julie Bean

This bracelet set looks great worn together stacked or worn separately. The design is created by stringing Super Kheops Par Puca beads and little Toho demi rounds onto two cut lengths of memory wire and adding little triangle dangles and jump rings at the ends.

Instructions

1. To see how to make this bracelet set, please watch the video: [How to Make a Memory Wire Super Kheops Par Puca Bracelet.](#)
2. In the course of the video you will learn how to cut memory wire with special memory wire cutters, create a loop on the end to stop your beads from falling off, string your beads, finish your bracelet and add little triangle dangles.
3. The dangles are actually little charms off an inch of charm chain!
