Instructions

1. To see how to make this bracelet from start to finish, please watch the video: [How to Make the Harper Bangle Bracelet featuring Miyuki Rectangles.](#)
2. During the video you will learn how to mix your epoxy clay and how to set it down into the channel of the bangle. You will then learn how to position and cut your Swarovski rhinestone cup chain, how to set all your Miyuki rectangle beads into the clay, and how to add the finishing touch of the Nunn Design ball chain. Because epoxy clay grips everything that you set down into it, you will not be using any glue for this project.
3. Once you have completed your bangle design, let it dry overnight before wearing.
