Instructions

This bracelet measures 7 inches total. To modify the length, adjust the number of units woven.

1. If you are new to loom weaving, begin by watching the video: [How to Use the Jewel Loom Beading Loom](#). You will use size D Nymo to set up your loom as shown in the video. For this pattern you will need 16 warp threads.
2. Once your loom is set up, thread your loom needle with a length of Nymo as long as you are comfortable working with. You will need to tie off and add new thread to your loom weaving as you work.
3. Follow the pattern shown in the illustration to create 6.5 inches of loom weaving, or continue the pattern to your desired length.
4. To create the picot beaded edge, please watch the video: [How to Add a Beaded Edge to Loom Work](#). Using what you have learned in the video, work your way back up along the sides of your loom weaving to add the green picot edge, 3 beads per stitch (see photo for reference).
5. To finish off your bracelet and attach your clasp, please watch the video: [How to Finish Off Traditional Loom Work and Add a Slider Clasp](#). Follow along with the video to tie off the threads of your bracelet. For added clarity, you may want to watch the video [How to Add a Beadslide Clasp to Loom Work](#). Attach your beadslide clasp as shown in the video. Enjoy your bracelet!
