

## Sterling Silver Adjustable Slider Star Bracelet

### Project B818

Julie Bean

Delicate and petite, this adjustable chain bracelet is a lovely accessory to wear year round. It features a sterling silver rolo chain and a pretty little sterling silver charm. Wear as a single bracelet or stack with others for a layered look.

### Instructions

1. Please begin this project by watching the video: How to Make an Adjustable Slider Clasp Bracelet.
2. In the video you will learn how to slide the chain through the clasp. Do that now so that you have made the bracelet portion of your project.
3. Take a head pin and place a small sterling silver bead onto it. Create a loop after the bead but before you do any wrapping, slide an end chain link from one side of your bracelet into it. Grasp the loop with your chain nose pliers and make a single wrap. The head pin is very short and you will only be able to make a single wrap. It helps to do the wrapping with a pair of chain nose pliers.

4. Repeat the last step but on the other side of your bracelet.
5. Open a jump ring and link it to your star charm. Find the mid way point of the bracelet and connect the jump ring to it. Close the jump ring.
