SKU: SWC-8420
Project uses 1 piece

Specialized Tools

Beadsmith Jeweller's Micro Pliers Chain Nose Flat Nose

SKU: XTL-5511

Instructions:

If your phone has a place to attach a classic cell charm strap, you will not need the audio jack adapters, and can buy the cell charm straps on their own. If not, the adapters are designed to fit into a 3.5mm TRS audio jack, which are commonly found on smart phones. Make sure your phone has this type of jack before you purchase the adapters.

1. Use a silver plated triangle jump ring to hang a 20mm Swarovski crystal star pendant from the ring on a black cell charm strap.
2. Use a silver plated 4mm, 21 gauge jump ring to hang an antique silver plated crescent moon pendant from the ring on the cell strap.
3. Pass the loop of the cell strap through the ring on a smartphone cell phone charm audio jack adapter plug. Then bring the charms on the cell strap through the loop and pull tight to create a lark's head knot.
4. Then simply plug the adapter into the audio jack on your phone to hang!

Variations

The cell straps come in a variety of colors, get one to match your favorite pendants and Swarovski crystals.

When substituting in items, pay attention to sizes and styles to make sure all your pieces will fit together.
