Project uses 3 pieces

Craft and Hobby Ceramic Disk Disc Magnets 3/8 Inch Diameter (15)

SKU: XTL-9106
Project uses 15 pieces

E6000 Industrial Strength Glue Adhesive (0.18 fl oz)

SKU: XTL-1054
Project uses 1 piece

Instructions:

1. For this project you will be using E6000 to adhere the magnets to the backs of the Vintage Flatbacks.
2. Simply add a dab of E6000 to the magnet and place in the center of the Flatback. Repeat with each magnet.
3. You will want to let them dry completely before using them. Dry them with the faceted side face down.

Because the Vintage Lucite Flatbacks come six to a pack you can add on one additional magnet pack to complete two full sets of 15 magnets, giving you 30 total!

Variations

There are so many shapes and colors for this project that you can really mix and match the Vintage Flatbacks. Go crazy!

When substituting in items, pay attention to sizes and styles to make sure all your pieces will fit together.
