Instructions

To begin, prepare your work area for a lot of glue use-it could get sticky!

1. Take one customizable cufflink and spread a generous amount of E6000 into it, almost filling it to the top.
2. Carefully place your buddha bead right in the center, as shown in the photos.
3. Mix the two colors of hex-cut Miyuki beads and sprinkle them around the buddha bead, pressing down gently and adding a few layers until the glue is no longer visible.
4. Allow it to dry overnight.
