Instructions:

1. Using a toothpick or small piece of wire as an applicator, spread some E6000 glue on the flat backside of the amethyst cabochon. Turn over and place into the bezel setting of the large Patera key. Let dry.
2. Open your large silver plated jump ring and link it through the hole at the top of the Patera key and also around the side of the key ring. Close the jump ring back up.
3. All done!

Variations

You can make this pretty key ring in gold or copper - just make sure to order all your components in the same metal color.

When substituting in items, pay attention to sizes and styles to make sure all your pieces will fit together.
