Project uses 1 piece

E6000 Industrial Strength Glue Adhesive (0.18 fl oz)

SKU: XTL-1054
Project uses 1 piece

Craft and Hobby Ceramic Disk Disc Magnets 3/4 Inch Diameter (8)

SKU: XTL-9100
Project uses 6 pieces

Instructions:

You will love how easy this project is to make!

1. Start by taking one of your glass cabochons and putting a small amount of diamond glaze onto the flat side of it. A puddle of glaze about the size of an eraser head should suffice. Flip over and press into place on top of one of your Lillypilly stamping blanks (over the patterned side).
2. Set down onto a completely flat surface, make sure the glass dome is centered on the stamping blank (not sliding off or going over an edge), and let dry for at least an hour.
3. Repeat the previous two steps with your other 5 glass domes and stamping blanks.
4. Place a small amount of E6000 glue on one side of a round magnet. Flip this over and center it on the solid color backside of one of your Lillypilly/dome combos. Let dry. Repeat this step with your other 5 Lillypilly/dome combos.
5. All done! Enjoy!

Variations

There are so many wonderful Lillypilly stamping blanks that you can use to make this project. Just remember to choose the 25mm size!

When substituting in items, pay attention to sizes and styles to make sure all your pieces will fit together.
