

# Pearly Swirls Key Ring

## Project C7004

Rachel Zaimont

This decorative key ring features turquoise Crystal Clay textured with a swirling wave pattern using the JudiKins Clay Squisher, finished with an iridescent mica powder sheen. A fun craft you can take with you anywhere!

Project uses 1 piece

## Recommended Tools:

[CSQ-1000] JudiKins Clay Squisher, Texturing Plate Japan Theme 6 Styles, 1 Sheet,

[XTL-880] ICE Resin, Angled Brushes for ICED Enamels & Paper Sealant, 6 Pack

## Instructions

In addition to the materials listed, you will also need some paper towels to protect your work surface.

1. First, watch our video on how to use Crystal Clay.
2. Based on the instructions in the video, put on the disposable gloves that come with your Crystal Clay and mix one large, gumball-sized ball of clay.
3. Next, watch our video on how to make a textured Crystal Clay pendant using the JudiKins Clay Squisher. In this video you will see how to shape the Crystal Clay in the bezel to prepare it, how to coat the texturing pad with mica powder, and how to press the clay into the texture so it takes the pattern and fills out the bezel.
4. Let the clay cure for 14 to 16 hours or overnight, and then your key ring is ready to use!
