SKU: XTL-1184

Project uses 1 piece

JudiKins Diamond Glaze Water Based Adhesive (2 Fl. Oz.)

SKU: XTL-1020

Project uses 1 piece

### Recommended Tools:

[TRC-600] Art Mechanique, ICE Resin Mixing Cups & Stir Sticks, 5 Pack, [ZDI-6303] Kraft

Brown Cardboard Jewelry Boxes 2.5 x 1.5 x 1 Inches (100), [XTL-4003] Beadsmith Bead And

Pearl Knotting Fine Point Steel Awl

## Instructions

In addition to the supplies listed, you will also need a toothpick, some paper towels and a small coin such as a penny to complete this project.

1. First, make a support structure to keep your bezel pin level as you work with it. Take a jewelry box (a shoe box would also work) and poke a hole through the top with a sharp tool such as an awl. Place the post of your pin into the hole. If it still isn't sitting level, you can slide a penny under the other end of the bezel to prop it up.
2. Next, please watch our video on how to make glitter paint with Diamond Glaze to use in a bezel. In this video you will see how to mix your glitter paint in a mixing cup using Diamond Glaze and fine craft glitter, and how to layer the paint in the bezel of your pin.
3. All done!
