Recommended Tools:

[XTL-5511] Beadsmith Jeweller's Micro Pliers Chain Nose Flat Nose

Instructions

By following the instructions below, you will make one earring. Repeat all instructions to make the second earring.

1. Place a dab of glue on the glue pad of an earring bail and press it into place on the backside of the sugar stone, with the loop centered at the top. Allow the glue to dry before continuing.
2. Open the loop on one of the earring hooks the same way you would open a jump ring.
3. Slide the bail loop onto the earring loop, and close the earring.
