Instructions

By following the instructions below, you will make one earring. Repeat all instructions to make the second earring.

1. Begin by taking your rivoli pendant setting. Use a dab of E6000 inside the setting and place the rivoli stone inside. It should fit nice and snug. Set the rivoli pendant aside to dry.
2. Now to make the "chain" we will be linking jump rings together. To learn how to open and close jump rings, watch our video here. You are going to be attaching the jump rings in a line to create a chain that is 7 jump rings long.
3. Attach the bottom jump ring to the rivoli pendant that you made.
4. Attach the top jump ring to the earring finding.

5. You are all done. Simply attach your earring backs to complete the look.
