Instructions

By following the instructions below, you will make one earring. Repeat all instructions to make the second earring.

1. Open the jump ring attached to the charm and remove it from the charm. Discard this jump ring, you will not need it for this project.

2. Take your flat nose pliers to bend the flattened end of the beading hoop up.

3. Onto the beading hoop, string one black seed bead, one angel wing, followed by 48 seed beads.

4. To the end of this beading hoop, make a simple wire loop. Trim the excess wire with your flush cutters.

5. Open the loop of the earring hook, the same way you would a jump ring and thread it through the hole at the top of the beading loop. Close the loop.

6. All Done!
