Instructions

Before beginning this project please watch our videos: How to Use the Beadalon Tassel Maker Tool and How to Add a Cone to a Tassel. By following the instructions below, you will make one earring. Repeat all instructions to make the second earring.

1. From what you learned in the first video, make one long tassel. Tie only one end and do not remove it from the winding tool yet.
2. Follow the instructions in the second video to complete the tassel with the cone.
3. Open the loop of the earring finding, same as you would a jump ring, and attach it to the loop you created on top of the cone.
