SKU: FEA-1013

Project uses 2 pieces

E6000 Industrial Strength Glue Adhesive (0.18 fl oz)

SKU: XTL-1054

Project uses 1 piece

Instructions

By following the instructions below you will make one earring. Repeat all instructions for the second earring. You will also need a paint brush, a toothpick and a paper towel for this project.

1. Please watch our video, How to Use Vintaj Patina on a Lucite Cabochon.
2. From what you saw in the video, place a few drops of patina onto a paper towel.
3. Using a paint brush, paint one layer of patina on to the cabochon. Wait about 10 minutes for it to dry. And then add another coat.
4. When the patina has fully dried, take a toothpick and place a dab of E6000 onto the pad of the earring post. Glue the post to the center of the cabochon. Let dry at least 24 hours before wearing.
5. Attach the earring back and you are all done!
