SKU: CHX-1084
Project uses 4 Inches

22K Gold Plated Surgical Steel Hypo-Allergenic Earring Hooks (100)
SKU: FEA-3010
Project uses 2 pieces

Recommended Tools:

[XTL-5600] Xuron Sharp Flush Cutter Pliers - Wire/Soft Flex, [XTL-5511] Beadsmith Jeweller's Micro Pliers Chain Nose Flat Nose, [XTL-5514] Beadsmith Jewelry Fine Round Nose Micro Pliers

Instructions

By following the instructions below you will make one earring. Repeat all instructions to make the second earring.

1. String one panda bead onto one headpin, with the bottom down. Make a simple wire loop. Set aside.

2. Cut 1 1/2 inch of gemstone chain so that you have a cluster of three at the bottom and a single link at the top. You should have 4 main links, meaning that if you count along the length you will have 4 links, not counting the baubles.

3. Open the simple wire loop of the panda bead, same as you would a jump ring, and attach it to the side of the gemstone chain with the cluster of three. Just find a center link to attach it to. Close the loop.

4. To the other side of this gemstone chain, attach the earring hook by opening the loop, same as you would a jump ring. Close the loop.

5. All done!
