Project uses 1 piece

## Recommended Tools:

[XTL-5514] Beadsmith Jewelry Fine Round Nose Micro Pliers, [XTL-5511] Beadsmith

Jeweller's Micro Pliers Chain Nose Flat Nose

## Instructions

By following the instructions below you will make one earring. Repeat all instructions to make the second earring. You will also need a toothpick or scrap of wire.

1. Using a toothpick or scrap of wire add a dab of E6000 into the well of the pendant bezel, place the red rivoli into the bezel. Set aside.
2. Add a dab of E6000 into the well of the link bezel, place the blue rivoli into the bezel. Set aside.
3. Allow your bezels to dry for at least 20 minutes before moving on.
4. Open a jump ring and attach it to the loop of the earring post, then attach the jump ring to one loop of the bezel link. Close the jump ring.
5. Move to the other side of the bezel link and open another jump ring to attach the loop of the link to the loop of the pendant. Close the jump ring.
6. Set your earring aside, face up and allow to dry at least 24 hours before wearing. Attach your earring back and you're all done!
