Jeweller's Micro Pliers Chain Nose Flat Nose

Instructions

By following the instructions below you will make one earring. Repeat all instructions to make the second earring. You will also need a scrap of wire or a toothpick for this project.

1. Use a toothpick or scrap of wire to add a dab of E6000 to the well of the fancy stone setting. Place the cushion stone into the setting.
2. Open the earring hook, same as you would a jump ring. Slip the loop of the setting up and over the back of the hook. Close the earring hook.
