Instructions

You will also need a paper towel for this project. By following the instructions below you will make one earring. Repeat all instructions to make the second earring.

1. Begin by using the Vintaj Patina to add color to the disc. If you have not worked with Vintaj Patinas before, please watch our video: How to Use Vintaj Patina. From what you learned in the video, use a paint brush to dab the color onto the disc. Quickly blot away the excess paint with a paper towel. Repeat on the backside of the disc as well for 360 color.

2. Open one jump ring and attach it to the colored disc and to one hole of the acetate link. Close the jump ring.

3. Open another jump ring and attach it to the second hole of the acetate link and to the loop of the earring post.
