

# White Coral Earrings

## Project E2327

*Kat Silvia*

These white coral earrings are a breath of fresh air. Brick stitch bead weaving around a form gives the base for a unique woven coral fringe to adorning the bottom.

## Instructions

By following the instructions below you will make one earring. Repeat the process to make the second earring.

1. For instructions to complete this project please watch our video: How to Add Beaded Coral Around a Form that has Circular Brick Stitch. Add as much coral as you like. These earrings are pictured with 12 corals.
2. To add the earring hook, add one seed bead facing perpendicular to the row of brick stitch at the very top of the earring. Note: This is different than what is seen in the video.
3. Tie off and weave in your thread.
4. To attach the earring finding open one jump ring and string it through the seed bead at the top and attach it to the loop of the earring finding. Close the jump ring.
