Jewelry Fine Round Nose Micro Pliers

Instructions

By following the instructions below you will make one earring. Repeat all instructions to make the second earring. You will also need a toothpick or scrap of wire for this project.

1. Begin by adding a dab of E6000 to the face stone setting with a toothpick. Place the fancy stone into the setting.
2. Open the loop of the earring hook, same as you would a jump ring, and attach it to the loop of the setting.
3. Please allow the earring to dry for at least 24 hours before wearing to ensure maximum bond.
