Instructions

By following the instructions below you will make one earring. Repeat all instructions to make the second earring.

1. Take one head pin and string on one pearl with the large side facing down. Then string on one bead cap with the large side facing down, and one bead cap with the large side facing up. Finally string on one crystal bead.
2. Make a wrapped wire loop. Trim any excess wire.
3. Open the lever back of the earring and slide this loop up and over the earring until it sits in the curved well at the base. Close the lever back to wear and you're all done!
