

Jamaican Waterfall Earrings

Project E2399

Kat Silvia

These wire wrapped earrings are lightweight and can be made using your favorite colors and metals. Tiny crystal rondelles are the star of the show with their delicate facets and rich color.

Instructions

By following the instructions below you will make one earring. Repeat all instructions to make the second earring.

1. To see how to complete this project from start to finish, please watch our video: [How to Wire Wrap Crystal Rondelles onto a Beadable Wire Frame](#). From what you learned in the video, cut off 12 inches of wire and straighten it using the nylon jaw pliers. Then begin wrapping around the form and add the beads. Trim off the wire and add the earring hook and you're all done.
