Instructions

By following the instructions below you will make one earring. Repeat all instructions to make the second earring.

1. To see how to complete this project from start to finish, please watch our video: [How to Make Fringe Earrings Using Miyuki Bugle Beads](#). In this video you will learn how to make fringe earrings by creating a row of double brick stitch and then tapering the fringe pattern to create a chevron style. Then you will tie off and weave in your threads. Finally, you will finish the design by opening one jump ring and attach it to the earring post and the triangle frame. Choose your favorite earring backs to go with this design.
