Fine Round Nose Micro Pliers, [XTL-5511] Beadsmith Jeweller's Micro Pliers Chain Nose Flat

Nose

Instructions

By following the instructions below, you will make one earring. Repeat all instructions to make the second earring.

1. Begin by looking through your seed bead mix and pick out 2 seed beads in red and 2 in green. (Note: There is a light and dark version of green and red in the assorted mix; I used the light red and the dark green, but you can choose your favorite shade of these colors.)
2. Take your eye pin and string on in this order: a red bead, a green bead, a red bead and a green bead.
3. Once your beads are on, create a simple wire loop using your round nose pliers. Snip off any excess wire using your flush cutters.
4. Next, using your chain nose pliers, open up the loop on your earring hook (the same way you would open a jump ring) and slide on the loop from your simple wire loop. Close the earring loop back up.

5. Now open up the jump ring that is already on your charm, and slide it through the loop on your eye pin. Close the jump ring with your chain nose pliers.
6. Your earring is now ready.
