

# Julianna Earrings

## Project E3021

Designer: Karlin Jones

These vintage-inspired earrings combine Vintaj natural brass scrolled filigree with sparkly SWAROVSKI ELEMENTS hematite rhinestone flatbacks. They'll add a touch of vintage glam to your look.

Flush Cutter Pliers - Wire/Soft Flex

## Instructions

By following the instructions below, you will make one earring. Repeat all instructions to make the second earring. You will need a scrap piece of wire to apply your glue.

1. Begin by watching the video on How to Use the Vintaj Relief Block.
2. Following what you learned in the video, take your relief block and using the side, start sanding the raised areas of your 2 stampings to show off the detail.
3. Using your flush cutters, cut off the loop on your Vintaj diamond mosaic stamping.
4. Next, place your Vintaj filigree stamping horizontally onto your work space. See the photo for reference.
5. Flip over your Vintaj diamond mosaic stamping and place a tiny dab of E6000 glue onto the back of it.
6. Then glue it down onto the center of your filigree pendant. Set your pendants aside to dry.
7. Slide a head pin into your jet black teardrop bead and create a simple wire loop.
8. Next, watch the video on How to Use BeadSmith's Magical Tray and Magical Pick Up Tool.
9. Next, add 9 tiny drops of hypo cement onto the 9 small diamond shape designs on your Vintaj diamond mosaic stamping. Onto each drop, place a Hematite rhinestone flatback using your Magic Pick. See photo for placement details.
10. Open a jump ring with your pliers and slide it through your simple wire loop and also through the opening at the bottom portion of your filigree stamping. Close the jump ring.
11. Next, open up the loop on your earring hook (the way you would a jump ring) and slide it through the opening on the top portion of your filigree stamping. Close the loop.
12. You're done!
