Micro Pliers Chain Nose Flat Nose

Instructions

By following the instructions below, you will make one earring. Repeat all instructions to make the second earring.

1. Begin by cutting a 1 inch length of your antiqued silver plated chain, making sure to not have any broken links at the ends.
2. Next, open up the loop from your antiqued silver earring hook (how you would a jump ring) and slide on the last link from one end of your chain. Close the earring loop back up.
3. With your chain nose pliers, open up an antiqued silver plated jump ring and slide on the last link from the other end of your chain length. Before closing, also slide on the small loop that is at the top of your cow bell charm and close.
4. That's it!
