Instructions

By following the instructions below, you will make one earring. Repeat all instructions to make the second earring.

1. Begin by watching the video on How to Make a Geometric Pyramid using Bar Chain.
2. Next, cut a length of gold plated bar chain that is 2 bars long.
3. Open a gold plated jump ring and slide it onto the last link on one side of your chain length. Before closing, also slide on the loop from your earring hook and close.

4. Create your geometric bar chain pyramid focal by following what you learned in the video and attach it onto the last link on the other side of your chain length via an open jump ring.

5. You're done!
