### Instructions:

1. Cut off a piece of wire (WCR-4226) 8 inches in length. Thread a Cubic Zirconia briolette (SPCZ-213) onto the wire. Wire wrap the briolette using the briolette wire wrapping technique. Set aside.
2. Cut off a piece of wire 6 inches long. Thread on a Cubic Zirconia briolette (SPCZ-363) to the wire. Wire wrap the briolette using the briolette wire wrapping technique from before. Set aside.
3. Thread one of the CZ rondelles onto a headpin. Wire wrap a loop. Cut off excess wire. Set aside.
4. Open the large jump ring (FJR-5395). Link the jump ring onto the small rondelle cz dangle, the larger briolette cz, and the small briolette cz in that order. Close the jump ring.
5. Open one of the smaller jump rings (FJR-5347). Link onto the larger jump ring with the dangles and another small jump ring. Close the jump ring.
6. Open the bottom loop of the leverback earring (FEA-6014). Link on the entire assembled earring part by the last small jump ring. Close the loop. You're finished!
7. Repeat the steps above to make the second earring. Remember to make a mirror image pair by turning the assembled earring dangle around before you hang it onto the bottom loop of the leverback earring.
