Wire Looping Pliers - Concave And Round Nose, [XTL-5600] Sharp Flush Cutter Pliers - For

Cutting Beading Wire, 1 Piece

Instructions

By following the instructions below you will make one earring. Repeat all instructions to make the second earring.

1. Take one eye pin and add one crystal bicone. With your wire looping pliers, make a simple wire loop. Snip excess wire with wire cutters. Repeat this process for two more bicones.
2. Take one eye pin with a bicone on it, and open the loop the same way you would open a jump ring. Attach one Celtic heart charm, and close the loop.
3. Open the loop at the other end of this piece, and attach it to another eye pin/bicone piece. Repeat this process once more for the remaining bicone piece, to create a strand of three bicones.
4. Finally, attach one earring finding to the top loop and close the loop.
5. All done.
