SKU: PND-08271

Project uses 2 pieces

22K Gold Plated Open Jump Rings 5mm 20 Gauge (100)

SKU: FJR-5250

Project uses 2 pieces

ICE Resin Jewelers Grade Clear Casting Epoxy Resin 8 oz Kit

SKU: TRC-10

Project uses 1 piece

Recommended Tools:

[XTL-5511] Beadsmith Jeweller's Micro Pliers Chain Nose Flat Nose, [XTL-5514] Beadsmith Jewelry Fine Round Nose Micro Pliers

Instructions

In addition to the materials listed above, we also recommend using a face mask and some disposable gloves for safety while working with resin.

1. Set up all four of your bezels in a well-ventilated and dust-free area. You can poke the earring posts through a shoebox so they will lay flat and create a level surface for the resin. Take a few pinches of JudiKins Glitter Roxs and fill each bezel so the glitter is level with the sides of the bezel.
2. Please watch our video on how to use Ice Resin. Put on your face mask and disposable gloves. Based on the technique shown in the video, mix the resin in a mixing cup and stir with a popsicle stick gently until all striations are gone. Set aside.
3. Use the popsicle stick to drip the resin into each bezel one drop at a time until it reaches the edges of the bezel and you create a low dome.
4. Let the resin harden and cure for three days before proceeding.
5. Once the resin has cured, open a jump ring and attach it to the loop on one earring bezel and the loop on one charm bezel. Close the jump ring, connecting the components.

6. Repeat step 5 to make your second earring. Enjoy!
