SKU: XTL-1054

Project uses 1 piece

Recommended Tools:

[XTL-5511] Beadsmith Jeweller's Micro Pliers Chain Nose Flat Nose

Instructions

In addition to the materials listed, you will also need a toothpick or scrap of wire. By following the instructions below you will make one earring. Repeat all instructions to make the second earring.

1. Take a bit of E6000 glue on the tip of a toothpick or a scrap of wire. Dab the glue around the inner edge of 1 Nunn Design open back bezel. Take 1 Swarovski crystal chaton and press it into the bezel. Let the glue dry for 14-16 hours, or overnight.
2. Using flat nose pliers, open the loop on the end of one ear wire the same way you would open a jump ring. Slide on the loop at the top of the open back bezel charm, with the crystal facing forward. Close the loop of the ear wire.
3. Enjoy your earrings!
