Instructions

For this project you will also need a soft bristle paint brush.

1. This entire project is demonstrated in the video: How to Emboss Crystal Clay and Make a Pair of Earrings.

2. Please watch the video to make this pair of earrings.

3. Tip: Be patient making these earrings. There are going to be pauses in the crafting where you need to let the Crystal Clay and Patina's dry. It is important that you let each stage dry for the designated time (described in the video) before moving onto the next step. You will be much happier with the process and results if you are patient.
