

The Betty Earrings

Project E759 [Skill Level: Beginner]
Designer: Julie Bean

These very "girly" earrings are as fun to wear as they are to make. The sweet bow dangling from a pretty pearl makes for a whimsical design.

Instructions:

By following the instructions below, you will make one earring. Repeat all instructions to make the second earring.

- Begin by snipping the head off an antique copper head pin. Create a simple wire loop where the head was, thus creating an eye pin. Place onto this eye pin 1 bead cap facing upwards, 1 SWAROVSKI ELEMENTS 14mm faux pearl in rose peach, and another bead cap facing downwards. Create a simple wire loop after the bead cap.
- Cut a length of chain 7 links long. Open one of the simple wire loops from the step above (the same way you would open a jump ring) and slip the end chain link onto this loop. Close the loop back up.
- On the other end of your chain open and link a jump ring. Before closing the jump ring also link onto it the loop at the top of your bow charm. Close the jump ring.
- At the top of your earring open the simple wire loop and link onto this the loop at the base of your earring hook. Close the loop.
- Enjoy!
