## Instructions

By following the instructions below, you will make one earring. Repeat all instructions to make the second earring.

1. Open a jump ring and link it to your pear pendant. Close the jump ring.

2. Onto an eye pin, place 1 4mm round erinite bead, 1 bead cap facing up, 1 round light siam bead, 1 bead cap facing down, and another round erinite bead. Create a simple wire loop after the last bead. Trim off excess wire. Make a total of two of these crystal links.
3. To assemble your earring, start at the bottom. Open a loop on one end of one of the crystal links you just made and connect it to the jump ring attached to the pear pendant. Close the loop back up. On the other end of this same crystal link, open that loop and connect it to the loop on one side of your second crystal link. Close the loop back up. Move to the other side of that second crystal link and attach the earring hook by opening the loop at the base of it. Close the loop.
4. All done! Enjoy!
