Instructions:

The contrasting colors chosen for this project look particularly striking on dark hair, with the feather appearing to float freely. Choose colors that you like, to match an outfit, or that will look good with your particular hair color.

1. Watch the instructional video: How to Make a Wire Wrapped Feather Headband. This video will walk you through the entire process of making this project.
2. Using 18 gauge silver plated square craft wire and 20 gauge silver plated half round wire, create a feather embellishment for a black tone headband frame as demonstrated in the video. Make sure that your square wire has a true square shape with nice crisp corners to achieve the pretty spiral look when twisted.

Variations

Change the colors in this piece to match your outfit, mood, or hair color!

When substituting in items, pay attention to sizes and styles to make sure all your pieces will fit together.
