SKU: FCO-9050

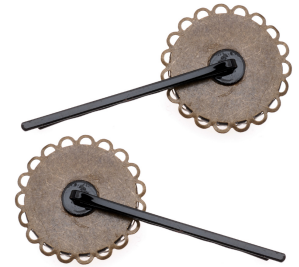

Project uses 2 pieces

E6000 Industrial Strength Glue Adhesive (0.18 fl oz)

SKU: XTL-1054

Project uses 1 tube

Instructions

Be sure to double these instructions to make your matched pair of hair pins, but glue the bobby pins on facing opposite directions so that you have a left and a right.

1. Place a dab of E6000 glue onto the back of a lucite round black and cream cat face cameo and press it into an antiqued brass bezel cup. Allow the glue to set for a few minutes.
2. Place a dab of E6000 onto the glue pad of a black enamel bobby pin and center it on the back of the bezel cup. Make sure that your cat face is straight, with the pin straight out to one side.
3. Allow the glue to dry for 24 hours before wearing.
