SKU: XTL-1054

Project uses 1 piece

### Instructions

1. Begin by taking the cap off of your tube of E6000. Turn the cap upside down and puncture the tube's protective seal with the pointed tip inside the cap.
2. Squeeze a small dab of E6000 glue onto the flat glue-on tab of a bobby pin. Line up the flat tab of the bobby pin with the center backside of a daisy and press into place.
3. Repeat the above step with all your daisies and bobby pins.
4. Let dry for 24 hours.
