SKU: PWC-18
Project uses 1 piece

Specialized Tools

Beadsmith Jeweller's Micro Pliers Chain Nose Flat Nose

SKU: XTL-5511

Instructions:

1. Before you begin, you may find it helpful to watch the instructional video: How to Use Triangle Jump Rings to see exactly how they work.
2. You will want to start by ensuring that the antique brass cherry pocket watch pendant is hanging centered on its chain. If it's off center, remove the jump ring and move it to a link at the center of the chain.
3. Use the antique brass plated triangle jump rings to hang Czech glass lime, strawberry, orange, lemon, plum, and banana beads from the chain of your watch. Place them in a random order and place more towards the center and the watch, gradually thinning them out as you move up the chain.
4. You can use the photo as a model to follow, but just place the fruit beads how you think they look best; it's really a freeform kind of project.

Keywords: pocket watch, watch, cherry, fruit
