SKU: CHA-1808
Project uses 2 feet

SWAROVSKI ELEMENTS Crystal Flatback Rhinestones #2058 Enhanced SS20 Crystal (50)

SKU: SWF-42000
Project uses 7 pieces

Instructions:

1. Cut two lengths of chain at 7 3/4" long.
2. Add a jump ring to either end of both lengths of chain.
3. Add one end of piece of chain to two of the holes on either side of a point on the filigree stamping.
4. To the opposite end of one of the lengths of chain add a spring ring clasp.
5. Using a toothpick, dab a small amount of E6000 glue on to the backs of the rhinestones and position them in the center of the filigree stamping in this way: place one rhinestone in the very middle and the remaining rhinestones surrounding the center one. The glue will set in about six minutes, and full curing occurs within twenty-four hours.
