

Iridescent Ice Necklace

Project N124

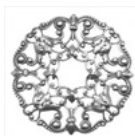

Designer: Andrea Morici

This large Swarovski rivoli sparkles with a rainbow-like effect, sandwiched between two large antique silver stampings. So very pretty, and no glue necessary!

SKU: FJR-5140
Project uses 10 pieces

Silver Plated Open Jump Rings 8mm - 18 Gauge (100)

SKU: FJR-5180
Project uses 2 pieces

Instructions:

1. Place the two stampings together with the rough sides facing each other, sandwiching the rivoli in between.
2. Open eight of the smaller jump rings and thread them through the holes, connecting the two stampings as shown in the photograph. Close the jump rings again.
3. Cut two pieces of chain at eight inches long each.
4. To one end of each piece of chain, add a large jump ring.
5. To the other end of each piece of chain, add a small jump ring.
6. To one of the small jump rings add one half of the toggle, to the other small jump ring add the other half of the toggle.
7. Thread the two large jump rings through the joined stampings about an inch apart from each other, as shown in the picture. Close all jump rings.
