Instructions

1. Your necklace comes pre-made with the clasp already attached. All you need to do is open and attach your jump ring to the top of your twist charm (as pictured) and then slide it onto your chain via the non-clasp end. This end is narrow enough to go right through the ring.
2. Open and attach another jump ring to your twist charm via the bottom loop.
3. To finish, attach one last jump ring to your lucite leaf charm and the bottom jump ring already attached to your charm. All done!
