Project uses 1 piece

Recommended Tools:

[XTL-5600] Xuron Sharp Flush Cutter Pliers - Wire/Soft Flex, [XTL-5511] Beadsmith Jeweller's

Micro Pliers Chain Nose Flat Nose

Instructions

These instructions will make a finished necklace just over 16". To lengthen or shorten the bracelet, simply adjust the length of the chain.

1. Slide the teardrop pearl (larger side first) on to the Headpin. Create a simple wire loop. Set aside.
2. Cut the chain to 16" using your wire cutters.
3. Open the jump ring and link it on to the center point of the chain (8"). Link it into one of the larger oval loops of the chain.
4. Link the sea glass on to that same jump ring. Be sure that the curve of the sea glass is facing away from you (as you would wear it.)

5. Then link your simple wire looped pearl on the jump ring. Close the jump ring. Now your pearl should be sitting nicely inside the curve of the sea glass.
6. Open a jump ring and link it to one of the ends of the chain (Again, using a larger loop of the chain). Close the jump ring.
7. Open the small side of the silver hook finding, same as you would a jump ring, and attach it to the other side of the chain (Using a larger loop of the chain).
8. Trim any small loops of the chain that may be left over from where you placed the clasp.
9. Have fun!
