SKU: XTL-5511

Beadsmith Jeweller's Micro Pliers Chain Nose Flat Nose

SKU: XTL-5511

Xuron Sharp Flush Cutter Pliers - Wire/Soft Flex

SKU: XTL-5600

Instructions:

Begin this project by forming the center links of each color.

1. Take all 8 rivoli pendant links in green and attach them in a chain using jump rings. Be sure to add one jump ring to each end of each strand for you to attach the chains.
2. Repeat this with red and crystal rivolis.
3. Now that all of your rivoli links are together you will cut your chain. These measurements are very specific to get the necklace to lay right.
4. To one side of the red links, cut off and attach 8" of chain. To the other side cut off and attach 6" of chain.
5. On both sides of the white links, cut and attach 8" of chain, on both sides.
6. To one side if the green links, cut and attach 8 1/4". To the other side cut off and attach 10".
7. Go to one side of the chains with the 8", 8", 8 1/4" and loop a jump ring through each chain link, attaching them all together.
8. On the other side, attach a jump ring through each chain link, but before closing the jump ring, add your lobster clasp.

Variations

If you would like you may use a different size of rivoli, but that may mean that you will need to alter your chain lengths. Also note that there are different package sizes for the different sizes of rivolis.

When substituting in items, pay attention to sizes and styles to make sure all your pieces will fit together.
