

Drops of Emerald Necklace

Project N2033

Designer: Kat Silvia

This fun design features multiple drop beads made with the Czech glass 2-hole SuperDuo beads in emerald green.

What You'll Need

Czech Glass SuperDuo 2-Hole Seed Beads 5.5x3mm - Emerald Green (8 Grams)

SKU: BCT-546

Project uses 2 tubes

Toho Round Seed Beads 11/0 932 'Aqua/Capri Lined' 8g

SKU: JSK-0135

Project uses 1 tube

Silver Plated 1.2mm Ball Chain - Sold Bulk By The Foot

SKU: CHA-1705

Project uses 18 inches

Silver Plated Ball Chain Connector For 1.2mm Chain (5 Pieces)

SKU: FCL-2025

Project uses 1 piece

Crystal Fireline Braided Beading Thread .006 In. 15 Yards

SKU: XCR-1280

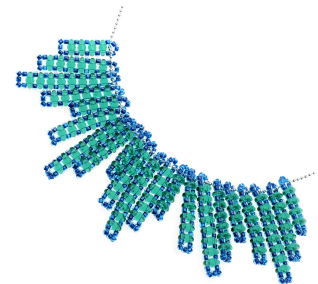

Project uses 1 spool

Recommended Tools:

[XTL-3006] Beadsmith English Beading Needles Size 12 (4 Needles), [XTL-5700] Fiskars 5

Precision Tip Scissors - Super Sharp

Instructions

These instructions will give you a necklace that is 18 inches. To adjust the length, simply adjust where you cut the chain.

1. To make these "drops" you will need about 1 foot of thread to work with for each one.
2. Cut a foot of thread and thread your needle.
3. Here is an example of how to do a drop with 4 beads: With your needle pick up five seed beads, one superduo, one seed bead, one superduo, one seed bead, one superduo, one seed bead, one superduo, five seed beads. Now take your needle and go back down through the other holes of the superduos, adding one seed bead in between each.
4. Take this thread and go around the thread path once more. When your threads meet up again, tie a double knot and weave the ends into a few beads. Cut the remaining thread. Set this piece aside.

5. To make a drop with 6 beads: With your needle pick up five seed beads, one superduo, one seed bead, one superduo, one seed bead, one superduo, one seed bead, one superduo, one seed bead, one superduo, one seed bead, one superduo, five seed beads. Now take your needle and go back down through the other holes of the superduos, adding one seed bead in between each.
6. Take this thread and go around the thread path once more. When your threads meet up again, tie a double knot and weave the ends into a few beads. Cut the remaining thread. Set this piece aside.
7. To make a drop with 8 beads: With your needle pick up five seed beads, one superduo, one seed bead, one superduo, one seed bead, one superduo, one seed bead, one superduo, one seed bead, one superduo, one seed bead, one superduo, one seed bead, one superduo, one seed bead, one superduo, five seed beads. Now take your needle and go back down through the other holes of the superduos, adding one seed bead in between each.
8. Take this thread and go around the thread path once more. When your threads meet up again, tie a double knot and weave the ends into a few beads. Cut the remaining thread. Set this piece aside.
9. Repeat the above steps to create all of the drops. You will need a total of six drops containing 4 superduos, ten drops containing 6 superduos, and five drops containing 8 superduos.
10. Cut off 18 inches of chain. Thread the chain with your drops keeping the staggered pattern. See the photo for reference.
11. I have strung my drops in the following order (by number of beads in the drop): 4-6-8-6-4-6-8-6-4-6-8-6-4-6-8-6-4-6-8-6-4.
12. To the ends of the chain, add one ball chain connector clasp to finish off the ends.
